MealJi — Data required from management

Everything the live system needs to replace the demo data before launch. The app, admin console and backend are built and running on AWS (api.mealji.in, admin.mealji.in, media.mealji.in) with demo kitchens, dishes, plans and customers. Each item below maps to a screen or setting that is already built.

Launch	Needed to go live at all (app cannot launch without it).
Before launch	Needed before customers use it; the app works without it, but with demo or default values.
Can come later	Improves the product; can be added after launch from the admin console.

How to send it: one shared folder with (1) this list filled in, (2) a menu spreadsheet per kitchen (template: section 6), (3) photos named after the dish / banner, and (4) secrets (keys, passwords, bank details) sent separately and privately — never on WhatsApp groups or email threads.

1. Company, legal and GST invoicing

Printed on every GST invoice the system generates (orders and Meal Ji Plus) and on legal pages. One set per billing entity (company, and each kitchen if kitchens bill separately).

Who usually has this: Founders / accountant / CA

Item	What we need / format	Example	When
Legal name	Registered company / firm name exactly as on GST certificate.	MealJi Foods Pvt Ltd	**Launch**
Trade (brand) name	Name customers see on invoices.	Meal Ji	**Launch**
GSTIN	15-character GST number, per state of operation.	29ABCDE1234F1Z5	**Launch**
PAN	Company PAN.	ABCDE1234F	**Launch**
FSSAI licence	Licence number and expiry, per kitchen (shown on invoices and the app).	1xxxxxxxxxxxxx, valid till 03/2028	**Launch**
Registered address	Full address, city, state, state code, PIN.	…, Bengaluru, Karnataka (29), 560095	**Launch**
Invoice prefix	Short code for invoice numbers (numbers then run per financial year).	MJ → MJ/2026-27/000001	**Launch**
Authorised signatory	Name (and title) printed on invoices.	R. Sharma, Director	**Launch**
Logo for invoices	PNG/SVG, transparent background.	logo.png	**Before launch**
Company email and phone	Shown on invoices.	accounts@mealji.in	**Before launch**
Bank details	Account name, number, IFSC (shown on B2B invoices; also needed for Razorpay settlement).	— send privately —	**Before launch**
GST treatment	Do menu prices include GST? GST % on food (usually 5%), delivery, packaging, platform fee; SAC codes; CGST+SGST or IGST.	Prices incl. 5% GST; delivery 18%	**Launch**

2. Legal documents and compliance

Shown in the app (Settings, sign-up and checkout) and required by the app stores and Indian law (DPDP, IT Rules, Consumer Protection).

Who usually has this: Founders / legal counsel

Item	What we need / format	Example	When
Terms of Service	Final text or URL.	mealji.in/terms	**Launch**
Privacy Policy	Final text or URL (must cover data export and account deletion — both are built).	mealji.in/privacy	**Launch**
Refund & cancellation policy	When customers can cancel, how refunds work, timelines.	Cancel within 2 min; refund 5–7 days	**Launch**
Grievance officer	Name, email, phone (shown on Help & Support, legally required).	Name · grievance@mealji.in	**Launch**
Subscription (Meal Ji Plus) terms	Billing, pause, cancellation, autopay rules in plain words.	—	**Before launch**
Marketing consent wording	Text for SMS / WhatsApp / email opt-in.	—	**Can come later**

3. Accounts and keys for live services

Each switches a demo/test service to the real one. Send keys privately; we store them only on the server.

Who usually has this: Founders / tech lead

Item	What we need / format	Example	When
Razorpay (payments)	Live Key ID, Key Secret, Webhook secret; KYC complete; settlement bank verified; UPI Autopay / Subscriptions enabled for Meal Ji Plus.	rzp_live_…	**Launch**
SMS OTP (2Factor)	API key, DLT-approved OTP template name, sender ID, DLT entity ID.	Template: MEALJI_OTP	**Launch**
Google Maps	API key with billing on (Places, Geocoding); restricted to our apps and server.	AIza…	**Launch**
Push notifications	Firebase project for Android/iOS (service account JSON) — order updates, offers.	mealji-app (Firebase)	**Before launch**
App stores	Google Play and Apple developer accounts; a test phone number + OTP for store reviewers.	Reviewer login	**Launch**
Support email mailbox	Mailbox for support@ / no-reply@ (sending for receipts, OTP fallback).	support@mealji.in	**Before launch**
WhatsApp Business	Number for Live Chat and order messages (WhatsApp Business API if messages are automated).	+91 9xxxx xxxxx	**Before launch**
Delivery partner API	If a partner delivers (Porter / Shadowfax / Dunzo etc.): account and API keys.	—	**Before launch**
Database user	A MongoDB Atlas user limited to the mealji-prod database (today it shares an all-database user).	—	**Before launch**

4. Brand and app content

Shown on app start, Home and marketing surfaces. All editable later in the admin console (Content).
Who usually has this: Marketing / brand

Item	What we need / format	Example	When
App name, logo, colours	Final logo (SVG + PNG), app icon (1024×1024), brand colours (hex), font if any.	#E8541E	**Launch**
Onboarding slides	3–4 slides: title, one-line text, image (portrait, ≥1080 px wide).	“Home-style meals, delivered”	**Before launch**
Home banners	Per banner: image (wide, ≥1200×600), title, link target (dish / category / offer / Plus), start–end dates, cities.	Diwali offer banner	**Before launch**
Home headline and texts	Greeting headline, search hint, delivery promise line, “Under ₹…” chip amount.	“Hot meals in 30 min”	**Before launch**
How we cook / features	Short brand story blocks with images (shown on Home).	Fresh daily, no preservatives	**Can come later**
Social / website links	Instagram, website, share text.	instagram.com/mealji	**Can come later**

5. Kitchens (one sheet per kitchen)

Each kitchen has its own location, delivery area, hours, team, menu and ‘About the chef’ page.
Who usually has this: Operations / kitchen managers

Item	What we need / format	Example	When
Name and address	Kitchen name, full address, PIN, Google Maps pin (or exact lat/long).	Koramangala Kitchen	**Launch**
Delivery area	Radius in km it delivers to (or the localities).	5 km	**Launch**
Contact	Kitchen manager name and mobile (becomes the kitchen admin login).	Name · 98xxxxxxxx	**Launch**
Opening hours	Per weekday open–close, or ‘open 24 hours’; weekly off days; holidays.	Mon–Sun 8 am–11 pm	**Launch**
Kitchen team	Staff who use the kitchen console: name, mobile, role (admin / staff).	2 staff	**Launch**
Order handling	Accept orders automatically or manually; average preparation time.	Manual, 20 min	**Before launch**
About the chef page	Chef name, title, tagline, story (≤2000 chars), a quote, 3–4 ‘pillars’ (icon + title + line), hero photo, gallery photos.	Chef Mujahid · 20 yrs	**Before launch**
Billing entity	Which GST/FSSAI entity invoices this kitchen’s orders (section 1).	MealJi Foods (KA)	**Launch**

6. Menu (spreadsheet per kitchen)

Categories, dishes and combos. We will share an Excel template with these columns; photos sent separately, named after the dish.

Who usually has this: Head chef / operations

Item	What we need / format	Example	When
Categories	Name, one-line subtitle, icon, image, display order.	Biryani · “Aromatic. Authentic.”	**Launch**
Dish basics	Name, category, short description (1–2 lines), story (optional), veg / non-veg / egg.	Chicken Biryani · non-veg	**Launch**
Dish price	Selling price ₹ and MRP (strike-through) if any.	₹329 (MRP ₹399)	**Launch**
Dish photo	Square, ≥1000×1000, plain or styled background; 1–3 per dish.	chicken-biryani.jpg	**Launch**
Portions	If sizes exist: label, price, serves (Regular / Large / Family).	Large ₹599 · serves 2	**Before launch**
Add-ons / choices	Groups (e.g. ‘Choose rice’, ‘Add a side’): required or optional, min–max picks, options with extra price.	Extra butter rice +₹40	**Before launch**
Meal upgrade	Optional ‘make it a meal’: items, extra price, saving.	+Naan & drink ₹99	**Can come later**
Details	Spice level (0–3), calories, preparation minutes, serves, cuisine, tags, badge (Bestseller / Chef’s special).	Spice 2 · 780 kcal	**Before launch**
Availability	Time slots (breakfast 7–11, lunch 11–4, snacks 4–7, dinner 7–11:30, or always), weekdays, daily quantity limit.	Lunch + dinner, 40/day	**Launch**
Combos	Name, dishes + quantity, price, MRP, photo, serves.	Biryani feast for 4 ₹1,199	**Before launch**

7. Pricing, charges and order rules

Applied on every bill. All editable later in the admin console (Settings).

Who usually has this: Founders / operations / finance

Item	What we need / format	Example	When
Delivery fee	Model: flat ₹, distance slabs (km → ₹), or partner quote + markup %; free delivery above ₹.	₹30 up to 3 km, free above ₹499	**Launch**
Minimum order	Lowest cart value accepted.	₹149	**Launch**
Other charges	Packaging charge, small-order fee (below ₹), platform fee, peak-hour fee and hours.	Packaging ₹10	**Launch**
Tips	Allow tips? Preset amounts.	₹10 / 20 / 30	**Can come later**
Payment options	Cash on delivery on/off and its limit; online methods.	COD up to ₹1,000	**Launch**
Cancellation & refunds	Customer cancel window, auto-cancel if not accepted in N min, refund amount support may approve without a manager.	2 min · 10 min · ₹500	**Launch**
Pickup / schedule later	Allow self pickup? Allow scheduling orders?	Pickup yes	**Before launch**

8. Delivery

How orders reach customers.

Who usually has this: Operations

Item	What we need / format	Example	When
Delivery method	Own riders, a partner (Porter / Shadowfax / Dunzo …), or both with fallback.	Partner + own riders	**Launch**
Riders	If own riders: name, mobile per rider.	4 riders	**Before launch**
ETA rules	Minutes per km, buffer minutes, when to book the rider (on accept / when ready).	3 min/km + 10	**Before launch**
Who pays delivery cost	Customer, kitchen or company.	Company	**Before launch**

9. Meal Ji Plus (subscription)

Plans, meal slots and rules. The app screens (Choose plan, Meal plan, Shift meal, Pause, Cancel, Billing history) are built.

Who usually has this: Founders / operations

Item	What we need / format	Example	When
Plans	Per plan: name, one-line subtitle, monthly price ₹ (and MRP), cycle days, meals per day, which slots, min–max items per meal, benefits list (5–7 lines), perks (free delivery on normal orders, % off), autopay and/or monthly payment link, image.	Standard ₹4,499/month · 3 meals	**Launch**
Meal slots per kitchen	Breakfast / lunch / dinner: delivery window, last time to choose (cutoff), preparation start, dispatch time, daily capacity, days.	Lunch 12:30–2:30, choose by 10 am	**Launch**
Weekly plan menus	For each weekday and slot: dishes members can pick and the default dish.	Mon lunch: 8 dishes	**Launch**
If a member doesn't choose	Shift the meal to the end of the plan, chef's default, repeat last, or skip; shift limits per month.	Auto-shift, max 4	**Before launch**
Pause, change, cancel rules	Pause 1–3 months? starts now or after the paid month; plan changes now or next month; cancellation reasons; grace days for failed payments.	Pause 1–3 months	**Before launch**

10. Rewards, referrals and offers

Points programme and launch offers.

Who usually has this: Marketing / founders

Item	What we need / format	Example	When
Points rules	Points per order and per rating, value of a point (₹), max % of a bill payable by points, expiry (months), birthday points.	10 pts/order · 1 pt = ₹0.25	**Before launch**
Tiers	Names and lifetime points needed (e.g. Silver / Gold / Platinum).	Gold at 2,000	**Can come later**
Rewards catalogue	Per reward: name, points cost, what it gives (free dish / ₹ off), validity, image, tier.	Free Gulab Jamun · 300 pts	**Before launch**
Referral	Points for referrer and friend; paid after friend's first delivered order?	200 each	**Before launch**
Launch coupons	Per coupon: code, flat ₹ or %, max discount, minimum order, validity, total and per-person limits, first-order only, payment method, cities / kitchens, who funds it.	WELCOME50 · 50% up to ₹100	**Before launch**

11. Customer support

Shown on Help & Support and used by the support team console.
Who usually has this: Customer support lead

Item	What we need / format	Example	When
Contact details	Support phone and hours, support email and reply time, WhatsApp number, live chat on/off and reply time.	9 am–11 pm daily	**Launch**
FAQs	Questions and answers (we have the app's 6 as a start), per category.	"Where is my order?"	**Before launch**
Ticket categories	Categories and the issues under each (My order, Payments, Offers, Account, Meal Ji Plus …), target resolution time.	Resolve within 24 h	**Before launch**
Canned replies	Standard answers agents can send.	Refund initiated…	**Can come later**
Support team	Agents: name, mobile, role.	2 agents	**Before launch**

12. Admin console users and notifications

Who manages the platform, and how we message customers.
Who usually has this: Founders

Item	What we need / format	Example	When
Console users	Name, mobile, role for each person: super admin, ops manager, marketing, finance, support agent, analyst.	6 users	**Launch**
Notification limits	Marketing quiet hours, max marketing pushes / SMS / WhatsApp / emails per person per day/week.	No marketing 9 pm–9 am	**Can come later**
Cities and launch areas	Cities and localities at launch; planned next areas.	Bengaluru: Koramangala, Indiranagar	**Launch**
Launch date and app versions	Target launch date; minimum supported app version policy.	—	**Before launch**

After this data arrives, the switch from demo to live takes these steps (all prepared): load menus and kitchens, set prices, taxes and rules in the console, add live payment and SMS keys, switch the server to production mode, remove the demo customers and orders, and run the launch checks.
